The Nevada State University at Elko has had during the past year forty-eight pupils, twenty-five of whom were girls.

The Western States taken together have been ex-pending for their pubne schools au annual sum of \$36,292,492. They have a total school population of 5,590,075.

The Massachusetts Society for the University Edneation of Women has helped six students this year in their University course. The society has also done an excellent work in providing pleasant social influences for those students who are strangers in Boston.

In Germany the Victoria Lyceum at Berlin procides for women regular examinations and certifi-cates of excellence in the higher studies. A chair is held by a female Ph. D. In Italy the universities are open to women and preparatory schools have been established in some cities.

The School Committee of New-Bedford speak disapprovingly of the unhealthful rivalries and the anxious straining endeavor induced by the competitive marking system in the high school. They hold that these are the real causes of the ill-effects attributed to the severity of the tasks.

The Texas Legislature is now considering a plan for providing school money by leasing the public school lands-no lease to be for a longer term than a year, and not for a less sum than \$12.80 a section. This plan also makes it a misdemeanor to graze cat-tle on unleased school lands—a thing which has long

The "Bureau of Education" at Washington has recently printed a pamphlet on the construction of healthful school houses. In this connection it may be observed that all the statistical pamphlets of this Bureau have not done the State so much practical educational service as has Mr. Charles Francis Adams's, jr., excellent Quincy report. Mr. Adams will not, of course, object to the statement that his observations and arguments are substantially the same that The TRIBUNE has been presenting for

Sixty-seven young men have held the position of Fellow at Johns Hopkins University, and nearly thirty of them still remain there. Most of the others have been promoted to excellent posts elsewhere. President Gilman reports that there has not been since the institution was opened a single case of dis-order or dishonesty. "We find," he adds, "that in many cases the love of study is too absorbing, and there is danger that the benefits of physical recre-nator will be for-atten, in the capeness for inteltion will be forgotten in the eagerness for intel-

Monmonth County, New-Jersey, is excited over the exclusion of colored children from the white schools of Fairhaven. The County superintendent has informed the Board of Education that these children must be excluded at all hazards, and has ordered the trustees to call upon the authorities, in case the colored people attempt to force their children into the schools. There seems to be no law excluding colored pupils, and their parents are about to bring suit against the school officers under the Civil Rights law.

Harvard has now twenty-two students from California, and this seemed to the Harvard Club of San Francisco to warrant a correspondence with President Eliot as to the advisability of sending an examiner to that coast. The suggestion was favorably received, and Harvard examinations (for men and women also) will be held at San Francisco, June 30 and July 1 and 2. Those candidates whose preparation will not be completed until next year may take a part of the examination this year and the remainder upon entrance.

Colonel Higginson not long ago introduced in the Massachusetts Legislature a permissive, not compulsory bill legalizing military drill in the public schools. Mr. Wendell Phillips wrote a letter, in which he says that the innovation is harmful and unchristian, and that the training of a boy for military service and inoculating him with military tary service and inoculating him with military tastes and longings is very gravely objectionable to a large class of thinking men. It may be less barmful than Mr. Phillips thinks; certainly the exercise is good for youthful bodies, and it is a recreation which works off excessive animal spirits in an innocent and honest way. It, moreover, promotes a habit of quick obedience and an erect and manly carriage; and it costs only a trifle.

Provost Pepper, of the University of Pennsylvania, urged in his installation address the need of ore definite provision than now exists to carry the education of women beyond the point generally attainable at present. He declared that there should be accessible to all women who exhibit the proper qualifications, a course of education in many respects the same as the usual University curriculum, in certain particulars different, but of equal excellence and thoroughness. Proficency smould be fested by rigid examinations, and satisfactory attainments should receive suitable certificates. The Provost pointed out that the demand for such facilities is great and is constantly becoming more generally recognized; and he observed that while his university could not take the initiative it will be ready to sity could not take the initiative of the considered efforts.

Chicago and San Frincisco, the chi spects the same as the usual University curriculum, assist as far as possible all well considered efforts toward this end. It has been making cantious advances and persons of both sexes are now admitted to certain lectures and laboratory work.

The University of Pennsylvania is to have a nev department in the shape of a School of Finance and Economy, which is to be endowed with \$150,000 or more by Mr. Joseph Wharton and to bear his name. The curriculum is to embrace not only practical bookkeeping and accounts, but the principles and proper subjects of taxation; the income and expenditures of governments of all kinds; keeping the outgo within the income; the nature and purposes outgo within the income; the nature and purposes of banking and currency; the nature of real money and its functions; the relations of trade, foreign and domestic; the functions of tariffs, whether for revenue or protection; official duties and morals in respect of duty in the handling of public moneys; the damaging-effects of "repudiation" of public obligations; the bad effects of running imprevidently into debt; elementary and mercantile laws and customs; industry, commerce and transportation, and in these matters the relations and duties of comeon carriers to the public; and other kindred branches.

Mr. C. L. Flint, chairman of the Committee on Boston High Schools, made some very just remarks at the dedication of the Latin and English High School building the other day. He wished, he said that he could impress upon the minds of parents that the community as a whole is too much inclined to rely on fine schools and instruction to make men of the boys. But these things are not so important as to develop discipline and study at home. Boys are too much incinied to rely on others; they want to be taught and have knowledge poured into them. But we must remember that while schools and colleges give direction we must rely on home influence to stimulate enthusiasm and create love for school and study. You must do something to stimulate the boys, to make them self reliant. These things have often been said, but they cannot be too much enlarged ugon. It is in cities especially where men are absorbed in business that they do little in the way of the intellectual and spiritual training of their sons. They have time for stocks and bonds and politics and society, but none to study the characters of their boys and to make friends of them. This is one of the burdens of life which they shift on to other shoulders—and it is not strange that the result is often pituable. as to develop discipline and study at home. Boys shift on to other shoulders—and it is not strange that the result is often pitiable.

A spirited meeting of the Norfolk County (Mass.) School Committees and Superintendents was held in Boston last week. A resolution urging upon the Legislature the adoption of a system of district superintes dence was defeated after much discussion. Mr. Charles Francis Adams, jr., said that it appeared that the old agricultural and fishing towns are largely in the same condition as regards education as they were before the day of railroads. The other towns have shot ahead and fix the rates of payment for instruction. A line of demarcation drawn between towns on the basis of their valuation shows that perhaps 280 need assistance from the State. At present they do not get all they might for their money. It was proposed to have the State divided into districts and have a supervisor appointed by the Board of Education for each district, whose paramount duty should be to annually, visit every school in his district and ascertain their condition, what methods of instruction are employed and wherein they are imperfect, and who, while having no authority te interfere with the management of the schools, would be expected to answer all requests for advice relative to examinations, the selection of teachers, etc. Mr. Adams estimated that the cost of such superintendence would be \$30,000, and thought the amount might be taken from the income from the school fund—though the money could be raised in other ways. for instruction. A line of demarcation drawn be-

MINES AND MINING.

WEDNESDAY, March 2-P. M. Business at the Mining Stock Exchanges to-day generally was light and without special features. Hibernia again was more active and weaker, eclining to 59@60 cents, and Little Cuief dropped from 1.65 to 1.45. Little Pittsburg fell from 3.60 to 3.65 and Climax from 59 to 51@55 cents, while Amie was dull and steady at 51 cents. Alta Montana continues to show a gradual improvement and today was in demand at 2.10. Hukill early in the day was weak with sales at 1.35, but later was in demand at 1.45 @1.50. Moose was hardly steady at 1.80@1.75, and the new purchasers of the property seem to be letting the stock alone, in the market, to seem to be letting the stock alone, in the market, to drift up or down as the market chooses to carry it. Consolidated Virginia was more active than usual, but its price remained at 1.30, while California declined to 85 cents. Buil Domingo was 10 cents lower at 3.45 and Iron Silver steady at 312. Rusing Sun sold at 3.05. The Greenville District gold mines were all strong: Green Mountain up to 7, Cherokee to 2.30 @ 2.15, but Gold Strip yielded 5 cents to 2.90. Among the low price stocks there was an exceptional advance for Miner Boy from 80 to 92 cents, and Great Eastern was active but without change in figures. The market closed irregular.

(BY TELEGRAPH TO THE TRIBUNE.)

SAN FRANCISCO, March 2.—There is a reported for provement in Overman. There is no special change in the other Comstocks. Black Hawk has levied an provement in Overman. There is no special change in the other Comstocks. Black Hawk has levied an assessment of 10 cents per share, Star 10 cents, Argenta 20 cents and Mammoth Bar 6 cents.
Bullion receipts for the past week: Christy, \$6,650; Bodie, \$6,869; Northern Belle, \$26,380; Contention, \$26,700; Eureka Consoridated, \$37,300; Tip Top, \$51,000; Grand Prize, \$9,500; Fresno Enterprise, \$9,600; Navajo, \$1,000; Standard, \$44,470 and \$60,400.

Standard has declared a dividend of 75 cents per share and Silver King one of 25 cents per share.

Bodie, Cal., March 2.—Standard Concolidated shipped to the mill during the past week 1,259 tons; average pulp assay, \$22 05. Crade bullion received, 3,265 onners. Simpped to company, \$44,470 26.
Boston Consolidated average ore samples for past week assayed \$38-22 per ton.
Concolidated Pacific is getting rich ore on the 600-level.

600-level.

Leadville, March 2.—A personal examination of the Little Pittsburg strike in Days proves that it was only a pocket. It was ten feet thick, but not over twenty feet square. To the north and west the ore has entirely disappeared from the faces, but a stringer two feet thick is still in the southeast drift. The north portion of Fiver Holl is universally "pockety." Other pockets may be found, but at present the Little Pittsburg strike is exhausted.

Bullion valued at \$44,530 was received in this Ballion valued at \$44,530 was received in this city yesterday from the mines.

The output of the Dunkin mine for the month of February was 684 tons. This company has at present 387 stockholders of record, an unusual showing for a mining company having an office in New-York.

The manager of the Chrysolite mine telegraphed yesterday that the mine was again running full blast, and that the shipment of ore would begin in a few days.

lew days.

It is reported that Governor Tabor's profits on the Matchless mine for the month of February were more than \$60,000.

At the annual meeting of the stockholders of the Iron Silver Mining Company, held yesterday, the following gentlemen were elected trustees for the ensuing year: L. Z. Leiter, S. V. White, G. D. Roberts, J. D. Smith, Thomas F. Mason, A. R. Whitney, H. A. Taylor, T. B. Brooks and Jonathan Brownell. The following is a summary of the recepts and expenditures of the company at the Leadville office for tweive months ending March 1, 1881; Receipts—

CLOSING PRICES OF PHILADELPHIA STOCKS.

City 6s, new 128 4824 | North's Pac. prof. 694 694 | North's Pac. prof. 694 694 | North's Con. R R 487s 49 | Fean. R R 684 684 | Ching Nav. 46 464 | Reading Valler 695 | Hestoavitte CR 1294 204 | Pana. and frie 265 27 | North's Pac. com. 4424 45 |

actions having amounted to 401,058 shares. The

The business in stocks to-day shows a decrease from that of yesterday of over 25 per cent, the trans

mmediate speculation seems to hinge upon the fate of the Funding bill, and prices rose and fell with rumors that the bill had passed and that it was killed. Of course neither report is true at this hour, but a rumor until contradicted is as good as a fact. Concerning the effect of the passage of the bill there seems to be only one opinion, and that is that there will be immediate trouble and further large contractions by the banks. This view is partly confirmed by a trustworthy report that more than one city bank has orders to deposit for its country correspondents certain sums, aggregating large amounts, if the bill passes the House with the objectional fifth section. Regarding the effect of a defeat of the bill, opinions are divided. Many persons hibition. T. H. SFRWARF & CO., 75 West 234 st., New Year. think that in that event prices for stocks will edvance, while there are others who affirm that the

failure to pass a practical funding bill will take from the market the moral support of a lower rate of interest for the maturing bonds, upon which idea the present prices for stocks were builded. Con-sidering the general impression concerning the matter, however, the first effect of the defeat of the bill probably would be a monetary improvement Actual Saiot. Closing Bids. Shares Sold.

To-day's opening figures were no better than yesterday's last prices, and in many instances were much lower. But whether as good or lower, an immediate decline followed. After that the market alternated between dulness and foversamess, and prices fluctuated. and prices fluctuated, according to the ru-mors of Congressional action, The active etocks were Northwest, St. Paul, Delaware, Lackawanna and Western, Lake Shore, Michigan Central, Erie, Central and Hudson, On-tario and Western, Iron Mountain, New-Jersey Central, Union Pacific, Wabash preferred, Western Union and Pacific Mail. Nachville, Chattanooga and St. Louis also was specially active and strong, rising to 93, but ending at 90. Michigan Central was specially weak, and sold as low as 10912, and St. Paul fell from 1083, to 106, and Northwestern from 12312 to 120. The market closed weak at a small reaction from the best fig ures of the last rally, and at prices materially lower than vesterday's latest.

Governments were dull, with sales at the Boards of only \$31,000. But prices were firm, the final bids showing advances of le per cent for all the issues except the 4s. Annexed are the closing quo-

tations:

The business in State bonds was unimportant, including sales of Louisiana consols at 62 and small bonds at 61; Virginia 6s. consolidated, at 11312@ 113, and deferred at 1478, and Alabama, class A, at 7212. Of city bank stock Merchants' sold (18) at The business in railroad bonds was confined al-

most exclusively to the speculative kinds, and for them prices were irregular. Of the investments there is a freer offering and a smaller demand than there was a short time ago. Erie second consols were active, and after sales at 994 declined to 9842 @9878. Missouri, Kansas and Texas first consols were 38 higher at 10618, and seconds 14 higher at 8134. Boston, Hartford and Eric firsts rose 38 to 5512 and then declined to 5478. Rome, Watertowns and Ogdensburg firsts fell from 88 to 87@8714 Mobile and Ohio first debentures were 1 per cent higher at 82, the first mortgages selling at 1081s. Canada Southern firsts declined to 9912@994. St. Louis and Iron Mountain first incomes rose to 9312, but closed weak at 924, and the second incomes sold at 85, against 87 the last previous sale. The elevated railroad issues were steady at previous quotations. Oregon Railroad and Navigation first declined from 10612 to 105, and Ohio Central firsts from 10512 to 104, and incomes from 6212 to 62. New-York, Pennsylvania and Ohio incomes were exceptionally active and strong, rising from 6512 to 6534. Denver and Rio Grande consols were 4 easier at 11242. Kansas and Pacific consols 1 per cent at

In London British consols were 1.6 higher at 994
for money, and steady at 993s for account. United
States bonds were unchanged, 5s at 1034; 443s at
1144 and 4s at 1164, although the med-day que
catton for the 4s was 11642. There was a general improvement in American railways in response to yesterday's late advance in the home markets. The advance was most marked in Blimos Central up to 137½, Central and Hudson up to 15.3% 153½, and Central Pacific up to 91½. Bar silver was 's lower at 52½! her ounce. The bank of England received £57,000 builton, and paid out £100,000 for shipment to America.

The Boston Marine Insurance Company announces that the \$500,000 additional capital stock subscribed for has been paid in, and that the company's cash capital is now \$1,009,000.

The receipts of flour and grain at the principal Atlantic ports this 2d day of March were: eral improvement in American railways in response
